Who we are

Female DJ Network is a South African entertainment and artist-booking business operating under **Fikelephi Holdings (Pty) Ltd**. Founded in 2015 by DJ and entertainment entrepreneur **Lady Zeejay**, the network was established to connect, promote and create opportunities for talent, with a strong foundation in supporting women in the entertainment industry. The business is expanding its service offering to work with artists and performers across multiple genres and disciplines.

Our purpose

To make it easier for organisations, event planners and venues to source suitable entertainment through one responsive point of contact — while helping artists access professional opportunities and build sustainable careers.

Why book Female DJ Network?

- **One point of contact:** Clients can enquire about artists, entertainment packages and sound hire through one agency contact.
- **A broad talent brief:** We can source and coordinate DJs, musicians, vocalists, bands, dancers, comedians, MCs, speakers and other performers according to the event brief.
- **Women-centred roots, inclusive reach:** Our history is rooted in creating opportunities for women in entertainment, while our booking approach can accommodate diverse talent and client requirements.
- **Local base, wider reach:** Based at Rock Ruler Music Academy in Soweto, we prioritise Gauteng opportunities and consider suitable work across South Africa.
- **Flexible solutions:** We can quote for an individual act, a curated line-up, sound equipment hire or a combined entertainment package.
- **Artist and event coordination:** We aim to clarify the brief, confirm availability, align expectations and coordinate agreed arrangements before event day.

OUR PROMISE

Professional communication. Clear booking terms. Suitable talent. A coordinated entertainment experience.

What we provide

A practical entertainment and event-support offering for corporate, public, private and community events.

ARTIST BOOKINGS & TALENT PLACEMENT

DJs; vocalists and singers; instrumentalists and musicians; bands; dancers; comedians; MCs and presenters; speakers; and other performers. Artist selection is based on the brief, budget, location, availability and suitability.

ARTIST MANAGEMENT & DEVELOPMENT

Booking coordination, artist profile support, promotional positioning, opportunity sourcing and professional communication. Management scope and commission are agreed with each artist in writing.

SOUND EQUIPMENT HIRE

Sound equipment hire for suitable events, subject to equipment availability, venue requirements, access, transport and technical assessment. An equipment list and technical specification can be supplied with a quotation.

ENTERTAINMENT PACKAGES & EVENT SUPPORT

Curated combinations such as DJ + MC + sound; live musician + DJ; or a multi-act programme. We can coordinate agreed entertainment requirements and liaise with event organisers and production teams.

How a booking works

- **1. Brief:** Client shares event date, venue, audience, programme, budget range and technical needs.
- **2. Proposal:** We check suitable talent and availability, then provide options and a written quotation.
- **3. Confirmation:** Scope, fees, timings, responsibilities, deposit and cancellation terms are agreed in writing.
- **4. Delivery:** We coordinate the confirmed artist and/or equipment arrangements and remain in communication with the client.
- **5. Close-out:** Final invoicing and agreed post-event follow-up.

We do not represent that every artist or item of equipment is always available. Each proposal is confirmed against the specific event brief.

Working with corporate & institutional clients

We understand that corporate procurement teams and event organisers need more than a creative idea. They need a supplier who can respond clearly, quote accurately, document the agreement and coordinate delivery. Female DJ Network is available to be considered for supplier onboarding, quotation requests, event briefs and suitable subcontracting opportunities.

Supplier information commonly requested

Depending on the organisation and the value/type of work, procurement teams may request the following. Documents are provided where applicable and subject to the company's current registration and compliance status:

- Company registration / CIPC disclosure documents for Fikelephi Holdings (Pty) Ltd.
- Company and authorised representative details, including contact information.
- SARS tax compliance status / Tax Compliance Status PIN, where required.
- B-BBEE certificate or sworn affidavit, where applicable and valid.
- Bank account confirmation letter or stamped bank statement.
- CSD supplier number and report for public-sector procurement, where required.
- Company profile, service categories, quotation and invoice details.
- Relevant experience, references, portfolio, artist profiles and event photographs, where available.
- Public liability insurance, COID / OHS documentation, risk assessments or venue-specific documents where required for the event.
- Sound equipment inventory, technical specifications, setup requirements and operator details where relevant.

Note: This profile does not claim certifications, insurance cover, CSD registration, specific client contracts or supplier approvals that have not been confirmed. Please advise us of your organisation's onboarding checklist and we will confirm which documents are available and identify any outstanding requirements.

What we need from you to quote

Event date and times • Venue and location • Type of event and audience • Required artists / number of performers • Sound and technical requirements • Performance duration • Budget or procurement range • Submission deadline and supplier requirements.
